

Strategic Litigation for Social Justice

Class Action Conference – Attendance Policy

Conference attendance is limited to practicing (actively representing clients) plaintiff-side attorneys with an interest in class action litigation and aligned government attorneys, law students, and academics.

Non-practicing former members of the plaintiffs' bar may be approved for attendance on an individual basis after articulating their history of work as a practicing plaintiff-side attorney and their current professional interest in the Conference.

The Director of Litigation and Training retains the discretion to approve or deny registration for all potential Conference attendees.
